Animation & Visual Effects Projects

Alice
Animator

Philadelphia, PA
June 2018 – July 2018

- Lip-synched and animated a character to a popular line of dialogue from a movie
- Followed strict, self-made deadlines in order to finish the project
- Created background and adjusted materials on the character to work with Arnold render engine

Scaredy Cat
Animator

Philadelphia, PA
August 2018

- Fully animated a character with the intent to express an emotion through body language
- Digitally painted background and retextured model to work with Arnold render engine
- Followed a self-set schedule with frequent deadlines that had to be met

Meltdown
Lead Animator

Drexel University
Sept 2016 – June 2016

- Supervised and animated all characters of a seven minute long animated short
- Modeled, rigged, and textured one main character and many background elements
- Composited nearly one third of all shots with color correction and corrective roto shapes

Work Experience

Drexel University
Adjunct Animation Professor

Philadelphia, PA
January 2017 – Present

- Instructs underclassmen an introduction to animation and modeling, the basics of motion capture, and an introduction to graphic design software
- Runs multiple classes independently while creating unique coursework
- Works individually with students to help them fulfill their potential

3FX
Junior Animator Intern

Blue Bell, PA
March 2015 – August 2015

- Produced works of animation for instructional videos, medical demos, and commercial businesses
- Modeled numerous medical instruments and organic anatomy
- Assisted in hosting meeting for clients by actively participating in project discussion

Activities

Secretary/Event Coordinator, Drexel SIGGRAPH Chapter, Drexel University
President, DART (Drexel Art Organization), Drexel University

June 2015 – June 2016
2003 - 2015
